

REPORT

I Have completed my SQL lab with help of notes provided during the regular online classes as well as reference book shared in class that is “book **BeginningSQLqueries** by Clare Churcher”.

I got required the output (correct format) after rectifying silly error in almost each queries. I Refer website such as <https://stackoverflow.com/>, <https://www.geeksforgeeks.org/>, <https://www.w3schools.com/>, to get know different ways of writing queies.
